

Lytle's Update

July 28, 2010

Dear Praying Friends,

Greetings from Suriname. Margaret and I returned to the city last week after 7 weeks in the bush recording the Wayana New Testament using 20 – 25 Wayana speakers. The people are really excited about recording the New Testament so that they can listen to God's Word in their homes and they can give the recording to Wayanas up and down the river and down in Brazil. This will be one more tool for them to use in their evangelistic outreach to their people and to other tribes here in the jungles.

Roy Johan Maikel

Ana Wayana reader

The recording is taking more time than we thought. We are at 75 %. I was scheduled to fly back to Lawa today but because of rain, the strip was closed and the flight was canceled. I'll try again tomorrow. It will probably take 2-3 more weeks to finish the recording. Please continue to pray for this recording project.

Margaret will be staying in the city to facilitate Eric & Jackie Burkhardt, former World Team missionaries, who just arrived for short term ministry here in the city. She continues to work diligently on the Wayana concordance and other graphic materials.

Please pray for Margaret in my absence

Thank you for praying for us. We praise God for you.
Roy & Margaret
